Location: Theni

## Career Objective

Computer Applications student with hands-on experience in academic projects involving programming, web development, and database management. strong understanding of software development concepts and problem-solving techniques. eager to leverage technical knowledge, communication skills, and a collaborative mindset to contribute to organizational success and grow an IT professional.

## Education

**BCA Bachelor of Computer Application | Nadar Saraswathi College of Arts and Science, Theni**

CGPA: 8.24

2024-2027

**HSC | TMHNUMHSS, Theni**

Percentage: 73%

2021-2022

## Intern-Experience

**UI/UX Design-Intern | Twikibot – Theni**

May 2026

- Conducted user research and designed wireframes and interactive prototypes in Figma to create intuitive, user-centered interfaces.
- Transformed UI designs into a responsive website using HTML5 and CSS3, ensuring clean code, accessibility, and cross-browser compatibility

**Frontend Development-Intern | Alphafly – Theni**

Dec-Jan 2025-2026

- Developed responsive, visually appealing web interfaces using HTML5 and CSS3 with a focus on user experience.
- Converted UI design concepts into clean, semantic, and maintainable front-end code.

**UI/UX Design-Remote Intern | InTopz Technologies Pvt Ltd - Bangalore**

Oct 2025

- Developed user personas, user flows, and journey maps to improve the overall user experience.
- Conducted usability testing and refined designs based on user feedback.
- Maintained consistency using design systems, reusable components, and style guides.

## Skills

Frontend: HTML | CSS3 | JavaScript

Backend: Python | C++

Database: MySQL

Tools: Vs Code | Canva | Figma

Soft Skills: Problem-Solving | Creativity | Team Collaboration | Adaptability | Analytical Thinking

## Projects

- Conducted user interviews and performed qualitative & quantitative research, using affinity mapping to identify user needs and pain points.
- Created user personas, empathy maps, user journey maps, task flows, and user flows to design intuitive user experiences.
- Evaluated interface usability through heuristic evaluation and improved the design based on user-centered design principles.
- Designed a responsive mobile application UI in Figma, including reusable components, button variants, top and bottom navigation bars, low-fidelity wireframes, and an interactive login prototype

## Course works

UI/UX Live Course for 3 Months with Hands on Experience

Diploma in Web Designing, Gen Ai-Prompt Engineering

Certification of Spoken English, Speed and Smart Arithmetic

## Hackathon and Workshops

Helmet with accident detector - live ongoing project for hackathon

Hands on practice with Core Java, Python, Internet of Things, Cloud Skills, AI for Beginners, Git, GitHub,

Machine Learning Fundamentals (From Data to Decision) Hackathon-Helmet Detection Ignition System (ongoing live project)

## Languages

Proficient- English, Tamil
